

TANDBERG COMPANY PROFILE

TANDBERG
See: **performance**

TANDBERG's mission is to change the way people communicate. Our vision of the future anticipates a world in which all communication is completely natural; unencumbered by technology. Natural communication is the ability to interact with someone — a co-worker, customer or supplier — as if you were in the same room.

We enable organizational transformations that empower people to do more with less. How are we doing it? We create solutions that deliver return on investment and advance corporate social responsibility goals:

- **ACCELERATE DECISION MAKING** — Business opportunities won't wait for travel schedules to align. You can bring your teams together instantly to make key decisions face-to-face, from anywhere, and rapidly advance business goals.
- **SCALE KNOWLEDGE** — By connecting with a specialist at the touch of a button, or archiving expert knowledge for anyone to access from anywhere at anytime, you can reduce downtime for repairs, reach more customers in less time and train your people faster.
- **UNIFY THE ORGANIZATION** — Create a virtual team room for offices around the world. Ensure quality and timeliness from your suppliers. Hold CEO "Town Halls" for all employees. Maintain your corporate culture as you grow.
- **PROMOTE WORK/LIFE BALANCE** — Reduce unnecessary business travel and increase employee satisfaction. Keep teams visually connected even when people are working from home.
- **REDUCE CARBON FOOTPRINT** — Environmental sustainability is more important than ever for organizations of all sizes. Telepresence and video conferencing offer one of the fastest ways to realize a substantial reduction in carbon emissions through travel reduction and telework.

TANDBERG is the global leader in visual communication and is consistently first to deliver fresh functionality to the market. With end-to-end, high-definition solutions, we provide the broadest range of video conferencing and telepresence products available. Our flexible, standards-based solutions enable you to grow your video investments and complete your unified communications platform at your own pace. TANDBERG has dual headquarters in Oslo, Norway, and New York, USA, with more than 1,200 employees across the globe. Our installations can be found in over 90 countries and are supported by a comprehensive partner network for expert local sales and service providers. TANDBERG is publicly traded on the Oslo stock exchange (TAA.OL).
