Video Over IP Seminar

HAVING THE RIGHT KNOWLEDGE LEADS TO SUCCESSFUL VIDEO UNDERSTANDING

Successful understanding of video communications is dependent on knowledge around trends, best practices, benefits and pitfalls when adopting video. Lack of awareness in these areas will prevent organizations from successfully representing the benefits that video communication can bring to your organization. TANDBERG's Video Over IP Seminar will help identify trends and draft a roadmap for a successful purchase and roll-out of video in your organization.

SOLUTION

TANDBERG's Video Over IP Seminar will highlight the industry evolution, trends and best practices. Through this seminar, attendees will reduce their learning curve and enhance the odds to a successful visual communications buy-in from senior management and the IT department.

SERVICE HIGHLIGHTS

- Video industry history
- Video communications life cycle, pitfalls and best practices
- Today's use of video communications
- Video industry trends
- Internet Protocol and ISDN overview
