## ENTERPRISE DESKTOP VIDEO Video for Anyone: The 150 MXP

### TANDBERG 150 MXP

TANDBERG's 150 MXP is an affordable, scalable solution for bringing the power of business-quality visual communications to your entire organization. be there now.

GET THE MOST FROM YOUR INVESTMENT. WITH **PROFESSIONAL SERVICES**, TANDBERG EXPERTS SUPPORT VIDEO SYSTEM DEPLOYMENT AND USER TRAINING. VISIT [WWW.TANDBERG.NET](http://WWW.TANDBERG.NET).

#### ARE YOU WASTING TIME?

Video takes the guesswork out of communication, instantly bringing teams together so that decisions can be made quickly. Whether at your office, in your home or with your vendors and customers, visual communication can play a key role in keeping members of an organization fully connected anytime, anywhere.

The TANDBERG 150 MXP desktop video system is an easy-to-use solution for organizations to maximize productivity. Placing reliable, secure video and audio calls on this compact system is as simple as making a phone call. And with the TANDBERG Management Suite, managing a large deployment of 150 MXPs is just as easy.

Featuring simple installation and network set-up, the 150 MXP can be widely deployed for video calls on any IP- or SIP-based network and features an optional handset for privacy in face-to-face communication.

#### EVERYONE CAN BE MORE EFFECTIVE.

**ELIMINATE GEOGRAPHIC BOUNDARIES**—Videoconferencing throughout your enterprise increases face-to-face collaboration and improves communication. Faster, more informed decisions increase productivity. Tying remote offices and suppliers to your visual communications network reduces travel while increasing visibility into your organization.

**PLAN FOR BUSINESS CONTINUITY**—Visual communication keeps business operations running when even local travel is a challenge. Keeping your employees visually connected enables faster, more informed emergency response and lessens the impact on your organization.

**PRODUCTIVITY THROUGH FLEXIBILITY**—Desktop video in a home office, as part of a structured telework program, reduces worker stress and commuting time and increases job flexibility while maintaining the teamwork and interaction needed to get the job done.

## FACE-TO FACE COLLABORATION ANYTIME, ANYWHERE: 150 MXP DEPLOYMENT

### EASILY COMMUNICATE FROM HOME TO THE WORKPLACE WITH EXPRESSWAY.

Add TANDBERG Expressway™ firewall traversal to securely communicate across any firewall with the 150 MXP. Expressway makes it easy to deploy IP-based video-conferencing in a home or remote office. Simply plug the 150 MXP into a DSL or cable modem and it immediately becomes a part of the secure enterprise dial-plan.

### TMS SIMPLIFIES MANAGEMENT OF YOUR VISUAL COMMUNICATIONS NETWORK.

The TANDBERG Management Suite (TMS) makes it easy to manage all your video system resources, providing quick visibility into your network for maintenance and ROI. Manage on-site and remote video systems. Easily schedule conferences or launch ad-hoc video calls from Instant Messaging (IM) sessions through Microsoft Office Communicator® or IBM Lotus Sametime®.

### SCALABLE SOLUTION THAT GROWS WITH YOUR ORGANIZATION.

TANDBERG's line of Media Processing Systems (MPS) enable your organization to support multiple video and audio participants in one or more conferences (up to 160 video and 48 audio). No matter how large your organization grows, TANDBERG's flexible solution allows you to protect your investment and continue to benefit from widespread visual communication across your enterprise.
