

# TANDBERG Grant Services Program

## PROGRAM OVERVIEW

TANDBERG's commitment to our customers continues with the expansion of our Grant Services Program. Through this crucial program, we provide expert assistance to education, healthcare, and state & local entities in securing federal funds for advanced telecommunications technology.

## GRANT SERVICES PROGRAM HIGHLIGHTS:

- Research and identify available federal funding opportunities, and provide eligible applicant organizations with notification and education on these programs
- Offer consultation on specialized needs such as classrooms, hospitals and first responders
- Match prospective grant applicants with qualified grant writers. In most cases, TANDBERG will even pay the up-front grant writing fees
- Offer consultative assistance to groups writing their own grant applications, answer common questions and provide valuable tips and feedback
- Match technical solutions to the specific needs of eligible applicants
- Provide post-funding consultation to ensure applicant success in implementation

## WE'RE HERE TO HELP YOU SUCCEED:

TANDBERG's dedicated team of Grant Managers provide you with grant program guidance, up-to-date information, and advanced knowledge to ensure your funding success! Numerous organizations have already taken advantage of these services to acquire everything from video endpoints and network infrastructure to training and professional development.

**Let TANDBERG help your organization secure federal funds for technology!**
